

# Grease-proof laminates for stock cubes and yeast

## DESCRIPTION

The wrappers for stock cubes and yeast are from aluminium foil laminated to special grease-proof paper which together with wax adhesive providing resistance against the intrusion of fat.

All laminates can be 6 colour rotogravure, 8 colour flexo-graphically printed or non-printed. The laminates can also contain a heat sealing lacquer coat allowing seal closing of the wrapped product. Laminates can be supplied embossed with the customer's product image or logo.

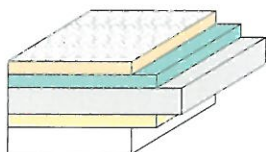

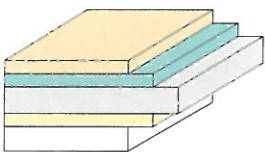

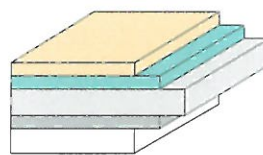

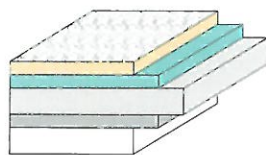

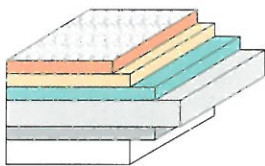

## TYPICAL APPLICATION

- Packaging materials for stock cubes and yeast.
